Dear David

Re: MR STEPHEN J MCGUIRE DOB: 22/07/1953
32 MC MAHON STREET
WILLOUGHBY NSW 2068

I am just writing regarding Stephen. As mentioned previously, he has severe AS. He reported minimal symptoms but has a borderline positive stress echo at moderate workload. I have discussed his case with Professor Bhindi, who has advised that we organise an angiogram. If he has no significant CAD we will discuss management of the AS as the culprit for his stress test symptoms and findings, which we were otherwise considering as silent until he was put on the treadmill.

I have tried to leave a message with Stephen to organise the angiogram.

Yours sincerely

Gemma Figtree
