**RE: Angelo Pavlidis DOB 23/01/51  
17 Parkwood Grove, West Pymble, NSW  
Mobile: 0415 100 153**

Dear Manu,

Thank you for reviewing Mr Angelo Pavlidis who was referred by Dr Thomas Yeoh for Transcatheter Aortic Valve Implantation on the background of severe aortic stenosis. Mr Pavlidis is a 74YO gentleman who has had a previous CABG in 2006 at RPA with Dr Wilson. His angiogram completed at Royal North Shore Hospital this month which showed an atretic LIMA (to LAD) as well as an occluded SVG to OM. He has a patent RIMA to ramus. There was a 95% lesion in mid SVG to R-PDA.

Mr Pavlidis has a background of CKD stage on PD started this year and is known to Dr Siriwardana. His other medical history includes T2DM on insulin, PVD with previous right leg stent, HTN, OSA and obesity. He reports increasing shortness of breath on exertion with a reduced exercise tolerance. He describes occasional discomfort after eating and denies any oedema, PND or orthopnoea. He lives at home with his wife and 4 daughters and is independent with mobility and ADLs.

We would appreciate your input on the surgical options for Mr Pavlidis in regards to his aortic stenosis and coronary disease. We will then discuss him at the next Heart Team after your review.

Kind regards,

**Prof Ravinay Bhindi**

MBBS (USyd), MSc (Oxon), PhD (USyd), FRACP, FCSANZ, FESC  
Professor, University of Sydney  
Consultant & Interventional Cardiologist

CC: Dr Thomas Yeoh
